List of Changes

Date	Description
05/01/2002	Initial version from Exposure original standard document.
05/21/2002	Updated to reflect D.20 data elements and codes.
07/15/2002	Updated to include NCIC Vehicle Make & Model codes.
09/09/2002	Updated to include compatibility with TranStats software & BTS goals.
09/15/2003	Updated with missing value and not collected codes. General clean-up of formatting and typographical errors.
02/23/2004	Revised structure to accommodate multiple vehicle owners.

TRAFFIC SAFETY DATA WAREHOUSE RECORD LAYOUT AND CODE DOCUMENTATION

VEHICLE REGISTRATION DATA

1. INTRODUCTION

This document describes the Vehicle Data Base as maintained within the US Bureau of Transportation Statistics (BTS) Traffic Safety Data Warehouse. The document provides a detailed listing of the VEHICLE data table, as well as the codes found within those tables. It also contains information on the standard export format for this table.

Initially, vehicle registration records available are needed to populate the BTS data warehouse. Afterwards, only new registrations are necessary to keep update the database.

2. VEHICLE – Vehicle Registration Data

The VEHICLE table is the only data table within the Traffic Safety Data Warehouse dealing directly with vehicle registration data. Each record is unique within the VEHICLE table, and is identifiable by a unique STATE, PLATENO and ISSDATE, which represents the registration for a particular vehicle in a given state for a given year.

In general, every attempt has been made to avoid use of NULL values within the tables to represent Not Stated values. Codes have been identified in most cases for Not Stated as well as Not Reported. Not Collected indicates that the particular data element is not available from the vehicle data source. Not Stated is usually exported as some variation of "Unknown"(e.g. "UN" or "U") for character fields or nines for numeric fields. Not Collected is usually exported as astricks for character fields or zeros for numeric fields. In certain cases the table will have defined code values for Not Stated, in which case the true code will be shown in the following documentation.

NOTE: This document is still considered a "work in progress". It will be modified based upon experience in migrating the first few states of data and may be altered to reflect several pening 'national standards' efforts as they are finalized in calendar 2003.

2.1 Coding Standards:

This document uses the following standards and conventions. Where specific exceptions were required, they are noted accordingly.

2.1.1 Long Name:

Each data field is described in terms of a Long Name which is usually fairly self-descriptive. This is the label that would likely be placed on reports or charts to make them self-documenting.

2.1.2 Data Name:

This is the data field name as it is stored in the relational database. By convention, and to facilitate exporting to dBase format, the maximum length of this field name is 10 characters (All Capital Letters).

2.1.3 Field Type:

This is an indicator of the data type for the specified field. Codes used are:

- C - Character Data (right filled with spaces)
- N - Number Data (left fill with zeroes)
- D - Date/Time Data (internal date / time field, exported as Number data in format YYYYMMDD)
- L - Logical or Boolean Data (0 = No, 1 = Yes)

2.1.4 Data Size:

The number of character or digit positions for the data field.

2.1.5 Format:

If the data is formatted in any particular style, this "picture" is shown. e.g. 999.999

2.1.6 Code Table:

This is the name of the code table, or look-up table that contains the specified code conversions. Code tables have the naming convention of:

L_TSDS_subsystem_table_field or L_TSYS_field

Where "subsystem" is the name of the Traffic Safety Data Subsystem that is being described (e.g.: CRASH, DRIVER, VEHICLE, ROADWAY), "table" is the table name within that sub-system, and "field" is the data field which is being described. Where a given field appears in multiple tables and sub-systems within TSIS, then the short form is used since it is not table-specific (e.g.: FIPS_PLACE).

2.1.7 Data Compatibility:

During the design of the BTS data structures, an effort has been made to utilize definitions, coding formats and code tables that are drawn from national standards and guidelines. Depending upon the sub-system, there will be information indicating if a field is drawn from or coding table follows some specified national standard. Where possible code tables and field formats have been drawn from the ANSI D.20 Data Dictionary for Traffic Records Systems.

2.1.8 Definition:

Most fields have a "Definition" note, followed by the ANSI or other data standards definition that has been used to define the data element.

2.1.9 Synonyms:

This note contains a list of terms that might alternately be used to describe the same data element. This list will be expanded as we work with additional states, and discover the terminology used in those states.

2.1.10 Codes:

Where there is a coding standard for the data element, the codes are listed. These same codes would be found in the specified **Code Table**.

Where there is discrete coding of information, codes have been added to the national standards to indicate that the field is "Not Collected", "Other", or "Unknown". "Not Collected" means that the data is not available from the specified state dataset. "Other" means that data obtained from that state for this field does not map to a specific value in the

BTS code table. "Unknown" means that either the state did not provide information on that field, but their documentation says that the field should be populated.

In most cases "Not Collected" is coded as zero for numeric fields and as 'Z's if the field is character. When a date field is "Not Collected" the date will be January 1 of the specified data year, or January 1, 1900 for non-specified years. Logic fields will be left blank if they are "Not Collected".

In most cases "Other" and "Unknown" will be high values for fields. For numeric fields "Other" would typically be filled with eights and "Unknown" would be blank. For logical fields the field will be left as zero. For character fields, the field will be filled with blanks.

Where there are national standards for code tables, which do not include these options, values have been added to the appropriate tables.

2.1.11 Look-Up Tables:

As noted above, all code tables, or look-up tables are provided for conversion of codes to data labels. All Look-Up tables are named as described above and have the generalized format of:

Code - The specified data code
Description - A text description of the code.

2.1.12 Annotations / Generated Data:

Several annotations are used in this document to clarify data fields. In addition, it should be noted that for sake of data integrity, "dummy" vehicle or person records may be generated into the system so that the number of vehicle and the number of vehicle occupants match the numbers provided by the state for that accident. The annotations used in this document include:

- (1) **Encrypted Field** - Indicates that one or more states have requested that this field be encrypted before being loaded to the BTS data system.
- (+) **Generated Field** - Indicates that the field is generated as part of the processing of the data. e.g.: The NUMFATS field is computed based upon the number of deaths reported at the PERSON level.
- (*) **Hidden Field** - Indicates that this field is hidden from some users of the data, or not provided to BTS for inclusion in the Intermodal Transportation Data Base. An asterisk indicates that the field is not maintained in the BTS data system. Other letters between the parentheses designate the user group that is allowed to see this field. Absence of any annotation indicates that all TranStats users will have access to the information.
- (n) **Multiple Occurrences** - Indicates that this field appears "n" times in the table. DATAFIELD(3) would represent that the field appears three times as DATAFIELD1, DATAFIELD2 and DATAFIELD3.

NOTE:

This document is still under final revision. It represents a complete traffic crash database model. After final review and approval by the BTS State Traffic Safety Data Repository Steering Committee, some fields may not be incorporated within the TranStats database. In addition, there will likely be decisions relative to views of the data that will be allowed for some select users, but not the general public (e.g.: name, location crossreference and milepost information, etc.).

VEHICLE Table - Vehicle Registration Data

Seq.	Variable Description	Data Name	Field Type	Data Size	Format	D.20 Field
1.	Record Source State	STATE	N	2	99	Y
	This The 2-digit FIPS code for the state.					
	Not Reported.....blank					
	Not Collected.....00					
2.	Record Number	VEHICLENO	N	14		Y
	This is an unique identifier within a given state and year that identifies a given vehicle registration record. It is constructed as follows:					
	Positions 1-2 - 99 - FIPS State Code for the source data.					
	Positions 3-6 - 9999 - Calendar year of data (YYYY)					
	Positions 7-14 - 99999999 - sequential system-assigned serial number record within the state for that year.					
3.	Sequence Number	SEQNO	N	1		
	This is an unique identifier used to differentiate a given vehicle registration record with multiple owners. Represents the number of records for each unique plate number.					
4.	License Plate State	PLATEST	C	2	XX	Y
	The State, Commonwealth, Province or Territory issuing the registration plate.					
	SYNONYMS: License Plate Jurisdiction; Base Jurisdiction, Registration Plate State/Province.					
	Not Reported.....blank					
	Not Collected.....ZZ					
5.	License Plate Number	PLATENO	C	8		Y
	The number or other characters, exactly as displayed, on the registration plate or tag affixed to the vehicle.					
	SYNONYMS: License Number; Trailer License Plate Number; Vehicle License Plate Number, Registration Plate Number.					
	Not Reported.....blank					
	Not Collected.....ZZZZZZZZ					
6.	License Plate Type	PLATETYP	C	2	XX	Y
	Specification of vehicle use and registration classification through the vehicle registration plate code.					
	SYNONYMS: Registration Plate Type.					
	Not Reported.....blank					
	Not Collected.....ZZ					
	Amateur Radio Operators.....AR					
	Antique.....AQ					
	Ambulance.....AM

14. Owner Identification Number Code OWNRIDCD

C 1 X

Code denoting value of stored in OWNRID.

Not Reported.....blank
 Not Collected.....Z
 Social Security Number.....S
 Tax Identification Number.....T
 Unknown.....U

15. Body Type of Vehicle BODYTYPE

C 2 XX Y

The general configuration or shape of a vehicle distinguished by characteristics such as number of doors, seats, windows, roofline, hard top or convertible.

SYNONYMS: Body Style; Vehicle Body Style.

Not Reported.....blank
 Not Collected.....ZZ

See Appendix A

16. Manufacturing Company of the Vehicle UNITMAKE

C 4 XXXX Y

The distinctive (coded) name applied to a group of vehicles by a manufacturer.

SYNONYMS: Make, Vehicle, Vehicle Make.

Not Reported.....blank
 Not Collected.....ZZZZ

See Appendix D

17. Manufacturing Model of the Vehicle UNITMODL

C 3 XXX Y

A code denoting a family of vehicles (within a make) which has a degree of similarity in construction, such as body, chassis, etc.

SYNONYMS: Car Line, Vehicle Line, Vehicle Model.

Not Reported.....blank
 Not Collected.....ZZZ

See Appendix D

18. Manufacturing Year of the Vehicle UNITYEAR

N 4 9999 Y

The year which is assigned to a vehicle by the manufacturer.

VEHICLE Table - Vehicle Registration Data

Seq.	Variable Description	Data Name	Field Type	Data Size	Format	D.20 Field
------	----------------------	-----------	------------	-----------	--------	------------

SYNONYMS: Vehicle Model Year.

Not Reported.....blank

Not Collected.....0000

19. Vehicle Identification Number

VIN

C

17

Y

A unique combination of alphanumeric characters affixed to the vehicle in specific locations and formulated by the manufacturer.

SYNONYMS: Serial Number, Motor Number, Chassis Number.

Not Reported.....blank

Not Collected.....ZZZZZZZZZZZZZZZZZZZZ

20. Primary Color of the Vehicle

PRICOLOR

C

3

XXX

Primary color of the vehicle.

Not Reported.....blank

Not Collected.....ZZZ

See Appendix B

21. Secondary Color of the Vehicle

SECCOLOR

C

3

XXX

Secondary color of the vehicle.

Not Reported.....blank

Not Collected.....ZZZ

See Appendix B

22. Date Registration Issued/ Renewed

ISSDATE

D

8

MMDDYYYY Y

The date on which the current registration began.

SYNONYMS: Registration Effective Date.

Not Reported.....blank

Not Collected.....00000000

23. Date Registration Expires

EXPDATE

D

8

MMDDYYYY Y

The date on which the current registration expires.

SYNONYMS: Registration Expiration Date.

VEHICLE Table - Vehicle Registration Data

Seq.	Variable Description	Data Name	Field Type	Data Size	Format	D.20 Field
	Not Reported.....					blank
	Not Collected.....					00000000

24. Date Vehicle Purchased

BUYDATE

D 8 MMDDYYYY Y

The date on which the vehicle was purchased, or in the case of a leased vehicle, the date of the lease signing.

SYNONYMS: Vehicle Purchase or Lease Date.

Not Reported.....	blank
Not Collected.....	00000000

25. Title Brand Code

BRAND

N 2 99 Y

Code providing information about the brand applied to the title.

See Appendix C

Unknown/Not Stated.....	99
Not Reported.....	blank
Not Collected.....	00

26. Vehicle Weight

WEIGHT

N 6 999999 Y

The unladen weight of the vehicle (e.g., single-unit truck, truck combination) plus the weight of the maximum load for which vehicle registration fees have been paid as measured using pounds.

SYNONYMS: Registered Gross Vehicle Weight.

Not Reported.....	blank
Not Collected.....	000000

27. Vehicle Fuel Type

FUELTYPE

C 1 X Y

The type of fuel used to propel the motor vehicle on public highways.

Not Reported.....	blank
Not Collected.....	Z
Diesel.....	D
Electric.....	E
Gasoline.....	G
Liquified Gases.....	L
Kerosene.....	K

28. Number of Axles

NUMAXELS

N	2	99	Y
---	---	----	---

The number of common axes of rotation of one or more wheels of a vehicle, whether power driven or freely rotating.

SYNONYMS: Commercial Vehicle Axles.

Not Reported.....	blank
Not Collected.....	00

VEHICLE Table - Vehicle Registration Data

Seq.	Variable Description	Data Name	Field Type	Data Size	Format	D.20 Field
------	----------------------	-----------	------------	-----------	--------	------------

29. Primary Carrier Identification Number PRICARID

C	12	Y
---	----	---

Unique number assigned by the US-DOT/FHWA for the owner of the vehicle.

SYNONYMS: Carrier Identification Number, US-DOT Number.

If Assigned By State.....XX9999999999
 If Assigned By FHWA.....9999999999
 Not Reported.....blank
 Not Collected.....ZZZZZZZZZZZZ

30. Carrier Responsible for Safety Identification Number CRSCARID

C	12
---	----

Unique number assigned by the US-DOT/FHWA for the carrier responsible for the safety of the vehicle.

SYNONYMS: Carrier Identification Number, US-DOT Number.

If Assigned By State.....XX9999999999
 If Assigned By FHWA.....9999999999
 Not Reported.....blank
 Not Collected.....ZZZZZZZZZZZZ

Appendix C – Title Brand Code Reference Table

00	<i>Clear</i> - No brand exists for the vehicle.
01	<i>Flood damage</i> - Vehicle damaged by freshwater flood.
02	<i>Fire damage</i> - Vehicle damaged by fire.
03	<i>Hail damage</i> - Vehicle damaged by hail.
04	<i>Salt damage</i> - Vehicle damaged by salt or saltwater flood.
05	<i>Vandalism</i> - Vehicle damaged by vandals.
06	<i>Kit</i> - A vehicle that has been assembled by combining a chassis with a different (non-matching VIN) frame, engine, and body parts. The VIN on the chassis is used as the vehicle's VIN.
07	<i>Dismantled</i> - The vehicle can only be sold as parts and can not be legally driven.
08	<i>Junk</i> - The vehicle is incapable of safe operation for use on the roads or highways and has no resale value except as a source of parts or scrap, or the vehicle's owner has irreversibly designated the vehicle as a source of parts or scrap. This vehicle shall never be titled or registered. Also known as nonrepairable, scrapped, destroyed, or non-highway.
09	<i>Rebuilt</i> - The vehicle, previously branded "salvage", has passed anti-theft and safety inspections, or other jurisdiction procedures, to ensure the vehicle was rebuilt to required standards. Also known as prior salvage (salvaged).
10	<i>Reconstructed</i> - A vehicle that has been permanently altered from original construction by removing, adding, or substituting major components.
11	<i>Salvage</i> - Any vehicle which has been wrecked, destroyed, or damaged, to the extent that the total estimated or actual cost of parts and labor to rebuild or reconstruct the vehicle to its pre-accident condition and for legal operation on roads or highways exceeds a jurisdiction-defined percentage of the retail value of the vehicle. The retail value of the vehicle is determined by a current edition of a nationally recognized compilation (to include automated data bases) of retail values. Salvage vehicle also includes any vehicle which an insurance company acquires ownership to pursuant to a damage settlement, or any vehicle that the vehicle's owner may wish to designate as a salvage vehicle by obtaining a salvage title, without regard to extent of the vehicle's damage and repairs.
12	<i>Test Vehicle</i> - The vehicle is built and retained by the manufacturer for testing.
13-15	<i>Reserved</i>
16	<i>Salvage Retention</i> - The vehicle is branded salvage and is kept by the owner.
17	<i>Prior Taxi</i> - Vehicle previously registered as a taxi.
18	<i>Prior Police</i> - Vehicle previously registered as a police vehicle.

- 19 *Original Taxi* - Vehicle is currently registered as a taxi.
- 20 *Original Police* - Vehicle is currently registered as a police vehicle.
- 21 *Remanufactured* - Vehicle was reconstructed by the manufacturer.
- 22 *Gray Market* - Vehicle was manufactured for use outside of the United States and has been brought into the United States.
- 23 *Warranty Return* - Vehicle returned to the manufacturer because of a breach in the warranty.
- 24 *Antique* - The vehicle is over 50 years old.
- 25 *Classic* - The vehicle is over 20 years old and adheres to other jurisdiction-specific criteria, e.g., vehicle make, condition, etc.
- 26 *Agricultural Vehicle* - The vehicle will primarily be operated on private roads for agricultural purposes.
- 27 *Logging Vehicle* - The vehicle will primarily be operated on private roads for logging purposes.
- 28 *Street Rod* - The vehicle has been modified to not conform with the manufacturer's specifications, and the modifications adhere to jurisdiction-specific criteria.
- 29 *Vehicle Contains Reissued VIN* - The chassis VIN has been reissued.
- 30 *Replica* - A vehicle with a body built to resemble and be a reproduction of another vehicle of a given year and given manufacturer.
- 31 *Totaled* - A vehicle that is declared a total loss by a jurisdiction or an insurer that is obligated to cover the loss or that the insurer takes possession of or title to.
- 32 *Owner Retained* - A vehicle that has been declared by the insurance company to be a total loss but the owner maintains possession and ownership of the vehicle.
- 33 *Bond Posted* - The insurance company has issued a bond on the vehicle because the ownership of the vehicle cannot be proven; this allows the vehicle to be sold and titled.
- 34 *Memorandum Copy* - The title document is a facsimile title and not the active (original or duplicate) title document.
- 35 *Parts Only* - The vehicle may only be used for parts.
- 36 *Recovered Theft* - The vehicle was previously titled as salvage due to theft. The Vehicle has been repaired and inspected (or complied with other jurisdiction procedures) and may be legally driven.
- 37 *Undisclosed Lien* - The vehicle has entered the titling jurisdiction from a jurisdiction that does not disclose lienholder information on the title. If no notice of a security interest in the vehicle is received within four months of issuance of the title, a new title may be issued without this brand.
- 38 *Prior Owner Retained* - A vehicle that was previously branded owner retained and was

sold. The new owner's title contains this brand.

- 39 *Vehicle Non-conformity Uncorrected* - A non-safety defect reported to the jurisdiction by the vehicle manufacturer remains uncorrected.
- 40 *Vehicle Non-conformity Corrected* - A non-safety defect reported to the jurisdiction by the vehicle manufacturer has been corrected.
- 41 *Vehicle Safety Defect Uncorrected* - A safety defect reported to the jurisdiction by the vehicle manufacturer remains uncorrected.
- 42 *Vehicle Safety Defect Corrected* - A safety defect reported to the jurisdiction by the vehicle manufacturer has been corrected.

Appendix D – Unit Make & Model Code Reference Table
